LYZA II

It's Showtime

Broadway has nothing on this show-stopper. The extended, narrow profile looks sleek, and the included headrest doubles as a positioning Shape or knee rest. Make your lover a vedette and bring the entertainment to your bedroom.

A woman with blonde hair, wearing a green lace bra and matching shorts, is reclining on a plush, mauve-colored convertible chaise longue. She is smiling and has her hands behind her head. The chaise is positioned on a light-colored, textured rug over a dark wood floor. In the background, there is a long wooden console table with a potted plant and a small hourglass. A window with sheer curtains is visible behind the table. To the right, a bedside table holds a clock and a small plant. The overall atmosphere is cozy and modern.
